Director McCue stated that the amount of rain over the past couple of months has made the work on the project more challenging for the contractor; however, the work is progressing. The contractor has removed the trees, road surface and sidewalks in preparation for the project. The storm sewer and piping are currently being installed. The contractor has until the end of August to complete the project including the storm sewer, water & sewer main, sidewalks, curb, gutter, blacktopping and landscaping.

Update on the status of any residential and/or business displacement and relocation assistance activities as a result of the CDBG project, if applicable.

There were no residential or business displacement or relocation activities resulting from the CDBG 2nd Street Reconstruction Project.

Review housing needs in the community.
